All in. All the time. On every coast.

Hi Jeff! Bob Dahlem, Bill Hoidas, Glenn Hughes and the whole Matrix/Transcom Payment Systems team has been the best credit card service we have ever used. They have worked with us since early 2000 and they participate in the annual NATB Vegas expo every year. No other credit card processor has ever been actively involved with our industry. They explained so much more to us about Address Verification (AVS), Security Codes, and Business/Corporate card requirements than any other processor which saved us thousands in processing fees. I believe they service more ticket brokers than any other processor and I haven't heard any one complain about their program at all.

We definitely recommend Bill Hoidas and Matrix Payment Systems and you can call me any time.

Sincerely,

**Seth Sharrin
